

What is the difference between Standard details & Custom details?

Standard Details:

Standard details allow you to edit the standard information that appears on your event details page (fees, times, Event information).

Custom Details:

Custom details allow you to create new sections on the event details page (Refund Policy, Race Day Information, etc). This section will insert a new section with its own header after the Standard Details (see below).

Schedule

Registration: 7:00 am

Start: 8:30 am
